[^]Disclaimer: Your computer's battery life may vary depending on product specifications, computer settings, and applications or features launched. The listed battery life is for individual battery packs tested with MobileMark 2007 in productivity test mode and with wireless connection on. All batteries' maximum capacity will diminish with time and use. Battery life indicated is with Acer PowerSmart Manager enabled. 2007 test results for the Acer TravelMate 8000. Battery life will vary based on your configuration. The MobileMark2007 benchmark does not include DVD playback. See <http://www.acer.com.au> for more information.

CASH IN ON THE 50% REBATE!

Take advantage of the small business tax rebate and depreciation allowances (deadline extended to 31st December, 2009)

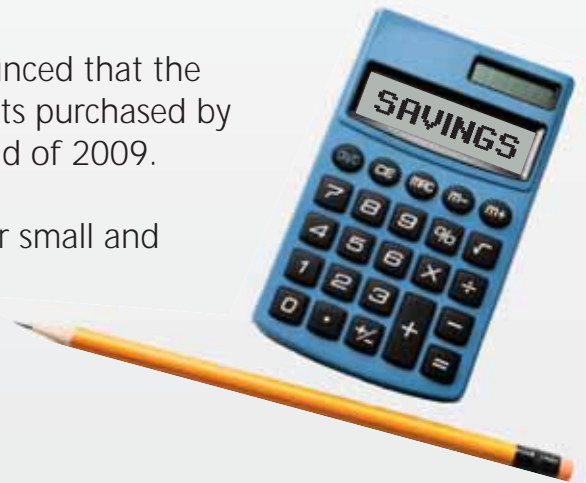

Here's the good news: The Federal Treasurer has announced that the allowance will be increased from 30% to 50% for assets purchased by eligible businesses. Now the deadline is extended to end of 2009.

The federal government's stimulus package released for small and medium businesses allows for a considerable saving in the form of a tax deduction on purchasing of new equipment. Any IT hardware purchased before 31 December 2009 will have a 50% investment allowance.

The concession will apply to most things that are depreciable for tax purposes, including bundled assets, e.g. notebook with attached accessories.

So if you are thinking of upgrading or improving your current computer and IT hardware, now is the time to act!

If you have a small business with an annual turnover less than \$2 million, the minimum purchase value must be \$1,000 to qualify. For other business entity with annual turnover exceeding \$2 million, the minimum purchase value must be \$10,000 to qualify for a 10% deduction.

Key points to remember:

- The deduction is limited to new tangible, depreciating assets.
- The asset must be used principally in Australia for the principal purpose of carrying on a business.
- New investment in relation to an asset (exclude GST) needs to exceed the above stated threshold.
- The asset must be used principally in Australia for the principal purpose of carrying on a business.
- The cost of items forming part of a set and the cost of identical or substantially identical assets may be added together for the purposes of meeting the thresholds.

For further details on how you can benefit from the deduction, please consult the Australian Tax Office or speak to your tax advisor.

Move over mouse!

With Windows® 7 and touch-screen technology, you can browse online newspapers, flick through photo albums, and shuffle files and folders—using nothing but your fingers. Windows® 7 is the first operating system to fully embrace multi touch technology. Need to zoom in on something? Just place two fingers on the screen of a multi touch compatible PC or Notebook and spread them apart. To right-click a file, touch it with one finger and tap the screen with a second. Touch away, with Acer.

"PLANTING 1 MILLION TREES!"

Following on from the 'Green' edition Business Buyers Guide, Acer will continue to commit to the noble cause of planting one million trees in Australia.

Scientists have warned us that the current carbon emission levels are causing global warming. The issue of climate change is real, not only for our generation but also for the generations to come.

At Acer we don't pretend we can solve the world's problems, but by taking the position of a corporate citizen we aim to make a positive impact and a small contribution to the environment. Acer is interested in reducing carbon emissions, in particular those emitted by computing devices.

Planting trees is an effective way to reverse the effects of carbon dioxide emissions through photosynthesis. Revegetation is also an integral part of any global climate change program. On average, 1.4 tonnes of timber contain 1 tonne of carbon. These largely continue to be stored in the timber even after harvesting.

Acer is committed to do our part for the environment. Since 2008, we have successfully planted more than 31,000 trees, this equates to offsetting more than 5,000 tonnes of carbon dioxide per year. Our goal now is pure and simple, we want to accelerate our tree plantation process, and with your help, Acer will plant a million trees within the next 2 years.

For every Acer system purchase (excluding monitors and projectors) featured in this edition of Acer Business Buyers Guide Acer will plant up to 10 trees in Australia.

Please support us in our goal and at the same time enjoy Acer's award winning range of products at great value prices.

For more information on carbon footprint and our tree planting efforts, please visit the website of Acer's environmental partner: Trees For Life – www.carbonneutral.com.au

Acer will match the price of HP, Lenovo, Toshiba or Dell + give you **\$50 eVoucher***

Acer will guarantee to match the price of any model* that is advertised by a competitor at a lower price* **PLUS** give you an Acer eVoucher* valued at \$50 for each unit purchased!

Acer Price Guarantee on ALL MODELS*

Use your eVoucher to redeem \$50 off the Acer peripherals.

* Terms and Conditions: 1. The Price Guarantee is offered on all Acer products excluding accessories in this Buyers Guide. 2. A copy of the competitors' quote or advertisement must be provided to Acer prior to confirmation of an order claiming the Price Guarantee. The competitor's offer must be valid during the same period of the Price Guarantee offer and the customer must qualify to purchase the competitor's products at the quoted price. 3. The Price Guarantee excludes all tender pricing, all government, education and corporate contracts, stock liquidations and sale of commercial quantities. 4. Acer reserves the right to reject a competitor's price if it considers at its discretion that the competitor's price is not the bona fide price. 5. Prices matched will be inclusive of cashback, freight, handling charges and taxes. The competitor's unit must be new and of substantially the same configuration and specification (including form factor, processor, chipset, memory, storage, redundancy, warranty, software, video, connectivity and display devices) as the Acer product. Acer reserves the right to determine whether a competitor's product is of substantially the same configuration as an Acer product. 6. Acer's Price Guarantee is available for a maximum of 20 units per customer. 7. For each unit for which a Price Guarantee price adjustment is allowed, Acer will issue to the customer a \$50 eVoucher. Each eVoucher may only be used on one peripheral listed online under eVoucher peripherals at the time of system purchase, and is not redeemable for cash.

Atom, Celeron, Core, Intel, Intel Logo, Pentium, Xeon are trademarks or registered trademarks of Intel Corporation or its subsidiaries in the United States and other countries. Pictures are for illustrative purposes only. All efforts have been made to check for errors in typography and photography; however inadvertent errors may occur for which Acer may not be responsible. All prices indicated are RRP inc GST. ** For warranty terms and conditions visit www.acer.com.au. Prices are valid until 30/11/2009 or while stocks last.

Acer Take Back Program

At Acer we're continuously looking for ways to help the environment. One way in which we do this is via the Acer Take Back Program. From \$35, Acer will collect your notebook or desktop and ensure that it is disposed responsibly.

Hitachi Simple Modular Storage 100

The Hitachi Simple Modular Storage, SMS100, is a simple and reliable entry level SAN that offers enterprise-class storage and data protection features. The SMS100 is ideal for small businesses that need a reliable and highly available storage system that is easy to install, manage and integrate with Microsoft® Windows and other common applications.

Key Features

- Hitachi SMS100 2U Storage Array
- iSCSI or Fibre Channel connectivity
- Dual Active Controllers for performance and redundancy
- Available in 6, 8 and 12 Disk configurations
- High Speed SAS or High Capacity SATA Disks available
- RAID 6 for maximum data availability
- 3 Years Advance Exchange Warranty**

From
\$12,189 ex GST

Adaptable Modular Storage 2000 Family

The AMS2000 family of storage arrays feature Dynamic Load Balancing Controllers, which provide integrated, automated hardware-based front to-back-end I/O load balancing; Full-Duplex, Point-to-Point SAS Architecture, which eliminates loop arbitration for better performance; Intermix of SAS and SATA HDDs in the same enclosure; and a new management interface, which was designed for use by small and medium businesses without storage expertise and is common with the SMS100.

Key Features

- Hitachi AMS2100 Storage Array
- iSCSI or Fibre Channel host connectivity
- Dual Active Controllers for performance and redundancy
- Highly scalable from 5 to 480 HDDs*
- High Speed SAS or High Capacity SATA Disks available
- Dynamic Storage Provisioning
- Supports RAID Levels 1, 5, 6 and 10
- On-Site support and maintenance
- Includes Hi-Track call-home monitoring

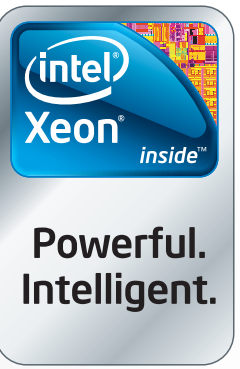

From
\$19,949 ex GST

Enterprise Solutions Group

Acer have a dedicated Enterprise Solutions Group, a team of highly skilled solutions experts who are available to help you identify and scope your storage requirements, design a solution to meet your needs and even to install the solution which they have designed. You will be given a single point of contact within the ESG team from start to finish so you don't have to worry about dealing with a different person every time you call.

SCALABILITY The Backbone of your IT Solution!

Dependable Workgroup Server

Altos G540 M2 powered by Intel® Xeon® Processor

The Altos G540 M2 is the latest in Acer's Server line up. Featuring the latest in Intel® Xeon® Quad Core technology and with up to 48GB of DDR3 registered memory using 4GB DIMMs, the Altos G540 M2 is more than capable of upgradability for future requirements. Up to eight hard disk bays supporting both SAS and SATA drive technologies offers the best in performance and availability. The Altos G540 M2 is positioned to serve small and medium businesses and enterprises in need of a server solution with performance, expandability, reliability and cost-effectiveness.
